SUMMARY

Third-year Computer Science Student at Universitas Diponegoro Semarang with strong expertise in software development, database management, and artificial intelligence. Experienced in managing projects to achieve objectives. Highly motivated to pursue a career in Software Engineering, Web Development, Backend Engineer, and Data Analyst. Skilled in programming, databases, and IT project management.

EDUCATION

Universitas Diponegoro - Undergraduate Computer Science **2024 - Present**

- **GPA** : 3.42 / 4.00
- **Relevant Courses**: Software Engineering, Object Oriented Programming, Data Structures, Database, Artificial Intelligence, Information Security

WORK & COMMITTEE EXPERIENCE

Academic Project Universitas Diponegoro

Semarang

Algorithm subject

June 2026

- Developed a Python-based Wumpus World simulator for evaluating pathfinding and search algorithms in an 8×8 grid environment.
- Implemented 7 search algorithms from scratch: DFS, BFS, Uniform Cost Search (UCS), Greedy Search, Greedy Best-First Search (GBFS), A* Search, and Beam Search.
- Built a benchmarking framework to compare algorithms based on path length, explored nodes, execution time, and success rate.

I-Gate committee

Semarang

Program Division

December 2025

- Coordinated event execution for a university orientation program with 200+ participants, ensuring smooth operations and on-time activity delivery.
- Utilized Google Workspace (Docs, Sheets, Forms) to manage participant data, event schedules, and internal team coordination.
- Resolved on-site operational issues in real time, demonstrating strong problem-solving, teamwork, and organizational skills in a fast-paced environment.

SKILLS

- Programming : Python, C, Java, and Go
- Database Management : PostgreSQL, MySQL, Oracle
- Framework and Libraries : React, HTML, CSS, JavaScript
- Tools : Github, Excel, Word

CERTIFICATIONS

- **Oracle** - Database Design Certification **January 2026**
- **Cisco Networking Academy** - Cisco Packet Tracer Certification **February 2026**
